NOTICE OF PROPOSED ACTION

Web Posting 04/05/12

Pursuant to Nevada Revised Statutes (NRS) Chapter 445B, the Nevada Administrative Code (NAC) Chapter 445B, and the Clean Air Act, the Division of Environmental Protection is issuing the following notice.

The Administrator received an application for renewal of a Class I facility (Class I Air Quality Operating Permit no. AP2819-0886.02, FIN A0009) from the following applicant:

Cyanco Company, LLC.
5505 Cyanco Drive
Winnemucca, Nevada, 89445

The project is located approximately 7 miles west of Winnemucca, Nevada in Humboldt County. The Administrator has prepared tentative determinations regarding the operating permit that, in brief, include the following processes:

The Cyanco facility manufactures a concentrated liquid sodium cyanide solution. Waste gases from the production are captured and vented to thermal oxidizers, to destroy cyanide compounds before they are emitted to the atmosphere. The thermal oxidizers also have low oxides of nitrogen burners as part of their design.

On the basis of the preliminary review and the requirements of the NRS, the NAC and the Clean Air Act, the Administrator is hereby announcing her intent to issue the renewal Class I Air Quality Operating Permit based on a review of the information, as proposed. A copy of the draft renewal permit is available for public inspection at:

Humboldt County Library
85 East 5th Street
Winnemucca, Nevada, 89445
(775) 623-6388

Persons wishing to comment upon the proposed determinations by the Administrator regarding this proposed action, or to request a hearing pursuant to NRS 445B Air Pollution and NAC 445B Air Controls, should submit their comments or request in writing, either in person or by mail or fax within thirty (30) days to:
